

Energizing a world that demands more

Eaton's complete line of industrial control products

Variable frequency drives

Enclosed starters and VFDs

IEC power control

NEMA® motor control and protection

Operator interfaces

Pilot devices and sensors

Industrial control headquarters • W126 N7250 Flint Drive • Menomonee Falls, WI 53051

Powering Business Worldwide

Variable frequency drives (VFDs)

OEM drives Eaton.com/drives

Unique, space-saving drives with programmable features provide valuable energy savings for OEM applications.

- PowerXL® DE1 variable speed starters
- PowerXL DC1 compact drives
- PowerXL DA1 advanced machinery drives

General purpose drives Eaton.com/drives

Engineered for today's demanding commercial and industrial applications, these robust drives provide reliable, efficient and precise motor control.

- PowerXL DG1 and SVX general purpose drives
- SPX high performance drives
- LCX liquid cooled drives
- RGX active front end drives

HVAC drives Eaton.com/drives

Designed to significantly reduce energy consumption, these ultra-efficient drives increase cost savings for most HVAC applications.

- PowerXL DH1 HVAC drives
- H-Max HVAC drives

Enclosed drives

Standard enclosed drives Eaton.com/drives

Innovative drives offer pilot devices, circuit breaker/fused disconnects, input/output filtering and bypass capabilities.

- PowerXL EGS drives
- HVAC enclosed drives
- Explosion proof drives
- NEMA® 1, 12, 3R, 4/4X, 7 enclosures

Flex Center Eaton.com/drivesflexcenter

The Drives Flex Center in Watertown, WI provides value-engineered enclosed drive solutions to fit exact specifications, from standard modifications to complete custom design/builds.

- Quick-ship enclosed drives
- Modified standard drives
- Custom built drives
- Special enclosure drives

Advanced VFD solutions Eaton.com/drives

Engineered-to-order configurations with motor protection relays, custom bypass, custom enclosures and harmonics mitigation.

- Filtered, 12-pulse and 18-pulse clean power drives
- Active front end drives
- Redundant drives
- OEM brand-labeled drives

IEC power control

XT contactors and starters Eaton.com/xt

Compact, space-saving and easy-to-install XT line of IEC contactors and starters is the efficient and effective solution for customer applications from 7 A to 2450 A.

- Non-reversing and reversing contactors
- Overload relays
- Non-reversing and reversing starters
- Safety contactors

XT manual motor protectors and combination motor controllers Eaton.com/xt

XT IEC open non-reversing and reversing manual motor controllers combine a manual motor protector with an IEC contactor(s) to provide a complete motor protection solution.

- Bi-metallic MMP
- Electronic MMP
- Type E CMC
- Type F CMC

Electronic motor starters (EMS) Eaton.com/electronicmotorstarter

Full starter with built-in solid-state contacts and integral overload protection. Compact size and high electrical life make it an ideal replacement for traditional contactor/overload relay starter configuration.

- Non-reversing starters
- Reversing starters
- Non-reversing and reversing with e-stop
- SWD connectable

Motor control, motor protection and enclosed control

NEMA power control Eaton.com/an19

Freedom NEMA-rated contactors and starters with solid-state and bi-metallic overload options; universal retrofit kits; UL listed.

- AN19 contactors
- AN19 and C440 starters
- AN16 contactors
- AN16 and C306 starters

Specialty power control Eaton.com/lightingcontactors Eaton.com/DPContactors

Designed to deliver application versatility, simple configuration and high-performance operation.

- C25 definite purpose contactors and starters
- CN35/C30CN/A202 lighting contactors
- Vacuum contactors and starters
- B230/B330/MS series manual motor starters

Solid-state starters (soft starters) Eaton.com/softstarters

Control acceleration and deceleration of three-phase motors with current ranges from 0.8 A to 1000 A. Compact, multifunctional, easy to install and program.

- S611/S811/S801 soft starters
- DS7 soft start controllers
- TL torque limiters
- S701 reduced voltage soft start controllers

Motor protection Eaton.com/C445 Eaton.com/C441 Eaton.com/C440

Providing the highest level of motor protection and versatility while maximizing uptime.

- Power Xpert C445 motor management relay with zero sequence GF and user logic
- Motor Insight C441
- C440/XTOE electronic overload relay

Enclosed control Eaton.com/enclosedcontrol

Expansive, flexible offering with a variety of modifications to meet your enclosed control needs.

- NEMA and IEC contactors and starters
- Lighting contactors
- Reduced voltage soft starters
- Pump panels and HVAC starters
- Custom OEM control panels

Aftermarket and renewal parts

Extend the life of existing products with quality replacement parts.

- Replacement contact kits and coils
- Legacy contactor and starter support
- Replacement mill control products

Automation and safety

Industrial relays Eaton.com/relays

Extensive relay line that can be customized to meet many application requirements.

- General purpose relays
- Solid-state relays
- Control, timing and monitoring relays
- Machine tool and terminal block relays

Programmable logic controllers Eaton.com/easy Eaton.com/PLC

Ideal for lighting, energy management, industrial control, irrigation, pump control and HVAC.

- easyE4 nano PLCs
 - Base device with or without display, 12 I/O
 - Expansion modules with digital/analog and PT100/1000
- XC300 small

Operator interface Eaton.com/OI

Features familiar, easy-to-understand control interfaces and command methods that are used in consumer electronics.

- XV100 basic
- XV300 advanced
- XP500 panel PC

Intelligent wiring solutions Eaton.com/SmartWireDT

Wiring solutions for control panels and OEM machinery that simplifies and consolidates complex circuit wiring into a single cable.

- Gateways, HMI/PLCs and PLCs
- In-cabinet modules such as pushbuttons and motor controls
- On-machine I/O modules such as sensors and I/O

Safety products Eaton.com/safety

Created to enhance machine operator safety and machine motor control.

- Safety controllers (easySafety)
- Programmable and discrete safety relays (ESR5)
- Safety contactors (XT) and safety pushbuttons
- LS-Titan, RS-Titan interlock and limit switches

Pilot devices, sensors and power distribution

Terminal blocks

Eaton.com/xb

Built for years of use under demanding conditions, these terminal blocks are available in three simple and reliable terminal connection styles with universal accessories.

- Screw terminals
- Spring cage terminals
- Insulation displacement connection (IDC)

Pilot devices

Eaton.com/pushbuttons

Available in many shapes and sizes, these versatile pilot devices are ideal for applications in the North American (NEMA) and global (IEC) markets.

- 20 mm and 30 mm pushbuttons
- Indicating lights and emergency stops
- Selector and palm switches
- Joysticks and potentiometers

Control stations

Eaton.com/pushbuttons

General purpose and heavy-duty options with fixed element or modular design to suit virtually any industrial or commercial application.

- 22.5 mm devices
- 30.5 mm devices

Control power

Eaton.com/powersupplies

Wide selection of durable and reliable DIN rail power supplies, available in 12 and 24 Vdc, for general, compact and low-profile applications.

- PSG general purpose power supplies
- PSC compact power supplies
- PSL low-profile power supplies

Sensors and limit switches

Eaton.com/sensors

Sensing option for many applications—from rugged, mechanically actuated switches to sophisticated, noncontact, sensing solutions.

- Photoelectric, inductive and capacitive sensors
- Power sensors for current and voltage
- NEMA and IEC mechanical limit switches

Signal towers

Eaton.com/SL

Provide highly versatile, completely modular signaling for key processes—and with IP66 protection, these signal towers thrive indoors and out.

- SL7—70 mm
- SL4—40 mm

Additional circuit protection solutions from Eaton

Power Defense™ circuit breakers

Eaton.com/powerdefense

Eaton's globally rated Power Defense circuit breakers increase personnel safety and provide a foundation for IoT, with embedded communications and metering functionality, helping to optimize your facility's performance.

Technical Resource Center (TRC)

Welcome to the industrial controls in motion tour

Eaton's exclusive trailer roadshow, known as the Industrial Controls in Motion Tour, travels the U.S. and Canada year-round. Schedule your on-site tour today.

Eaton travels cross country with the Industrial Controls in Motion Tour, showcasing how our control components help cut costs, improve efficiencies, optimize equipment performance and maximize uptime.

Inside the trailer roadshow, 40 feet of the latest Eaton innovations are on display in fully functional, real-world environments. Our demonstrations are built to simulate day-to-day challenges that users face and provide a variety of solutions. Featured applications include HVAC/R, pumping, process industry and material handling.

The Industrial Controls in Motion Tour is a hands-on, educational opportunity for OEMs, institutions, commercial facilities, mechanical contractors and end users. It's designed for you and your customers. To schedule a free, personal, on-site tour, talk to your Eaton salesperson today.

Depend on Eaton

Eaton's industrial control portfolio offers a unique combination of systems, components and services that ensure you minimize risk and optimize your investments.

Our customized, innovative solutions can be trusted to keep machines, motors and systems running efficiently in industrial or commercial settings. These same solutions extend product life cycles and are easily upgraded to meet changing regulatory and processing requirements. Eaton is dedicated to empowering your business.

When the trailer arrives at your location, you and your customers will experience interactive demonstrations and live presentations. This is your chance to see Eaton's products in action.
